

HGDX-7185 Three Station Fully Automatic Plastic Thermoforming Machine

Station	Unwinding unit,heating unit,forming part,cutting part,stacking part,scroll winding unit.
Suitable materials	PP,PS, PET,PVC,OPS,PLA
Sheet thickness	0.15-2mm
Max formed area	710x850mm
Min. Formed Area	420x300mm
Min.Formed Area	420x300mm
Max punching area	690x830mm
Travel depth	150mm
Formed Depth	120mm
Heating power	55kw
Sheet Width	450-760mm
Total power	120KW
Weight	14000KGS

Fully automatic plastic cup thermoforming machine

Station	Unwinding unit,heating unit,forming part,stacking part,scroll winding unit.
Suitable materials	PP,PS, PET,PVC,OPS,PLA
Sheet thickness	0.15-2mm
Max formed area	710x850mm
Min. Formed Area	750×520mm
Min.Formed Area	750×520mm
Max punching area	750×520mm
Travel depth	180mm
Formed Depth	180mm
Heating power	45kw
Sheet Width	750mm
Total power	100KW
Weight	10000KGS

I need one of each of these, how are they priced? How long will it take to get them to Cuba?
What certifications do you have to validate the quality?
